Education

Universidad Tecnológica de México   April 2022

Master's degree in Technology and Information Security

Top 10% of my class

Universidad del Valle de México   May 2015

Bachelor's degree on International Commerce

Labour Experience

October 2023 - Present

AMIAC (Mexican Academy of Informatics)

Associate Member, Researcher

- Participate in high-level discussions and debates with top IT professionals in Mexico.
- Conduct research on emerging IT trends and security threats to provide valuable insights.

December 2022 - Present

Growthfactor

Co-founder, Full-stack Developer, and Commercial Strategist

- Co-founded Growthfactor, a platform designed to evaluate personnel performance, reward achievements, and enhance team skills.
- Lead the development of full-stack solutions to ensure the platform's efficiency and scalability.

March 2019 - August 2022

B4W Mexico

Cybersecurity Analyst

- Developed Business Continuity Plans (BCP) and prepared clients for ISO 27001 certifications.
- Applied frameworks like MITRE ATT&CK and OWASP for comprehensive security analysis and threat mitigation.

- I was in charge of the implementation of Security Operations Centers (SOC) using Splunk, Business Continuity Plans, and ensuring compliance with frameworks such as NIST and MITRE.
- I developed a system to evaluate working conditions according to NOM 035 (applicable only in Mexico) and designed the web app for NeuroAp https://neuroapp.com which helps companies fulfill the requirements for NOM 036 (exclusively in Mexico) to maintain a healthier work environment.

February 2018 - December 2018

B4W South Africa / Inclusive Growth Project

- Front-end Developer
- Designed and developed corporate websites, newsletters, and landing pages with a focus on HTML, CSS, and JavaScript.
- Enhanced user interfaces to improve user experience and engagement.

September 2013 - February 2018

Specialpy Chemicals / Intern (May 2012 - Sep 2013)

Imports & Customs Operations Specialist (Sep 2013 - Feb 2018)

- Managed imports and customs operations for a leading chemical products provider in Mexico.
- Ensured compliance with importation regulations and facilitated the distribution of chemicals to various industries.

Additional Information

- Native like English, conversational French
